

Parallelspace Communities™ **Windows XP and “Longhorn” Prototypes**

Michael Herman
Chief Technology Officer
Parallelspace Corporation
mwherman@parallelspace.net

Parallelspace Corporation **Truly Collaborative™ Business Solutions**

- ◆ **Business software solutions and services partner**
- ◆ **Active collaboration solutions for better connecting companies with their employees, suppliers, partners and customers**
- ◆ **19 Years of experience building Microsoft Windows solutions**

Parallelspace Corporation

parallel
space

- ◆ "The Parallelspace solutions built on the Groove platform are some of the most innovative we've seen.

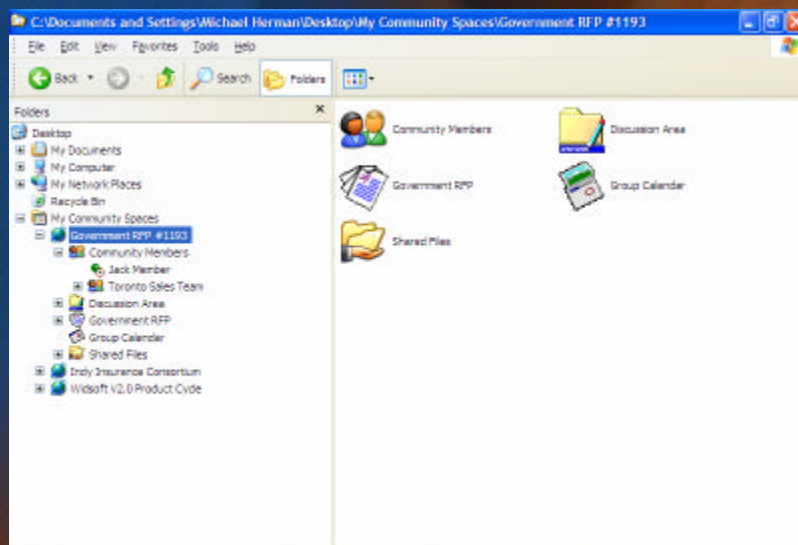

In particular, what they've done to integrate email within a Groove shared space truly positions Parallelspace as a leading developer of collaborative solutions."

Steve Wilkinson, VP Alliances, Groove Networks

- ◆ "Brilliant Developers"
Jon Udell, Lead Analyst, InfoWorld Test Center

Parallelspace Communities Community Members and Tools Example

parallel
space

Parallelspace Communities

parallel
space

What are they?

- ◆ **My Community Spaces (MyCS)**
 - Contain 0 or more individual Community Spaces
 - A top-level container in the LH user experience
- ◆ **Community Space (CS)**
 - Contain Community Members and 0 or more Shared Applications
 - CS = unit/scope for P2P replication/sync across all Community Members
 - Shared Application Examples
 - Shared Files, Threaded Discussions
 - ISV Apps: ARTS™, WorkSmith™, TimeTracker™

Parallelspace Communities

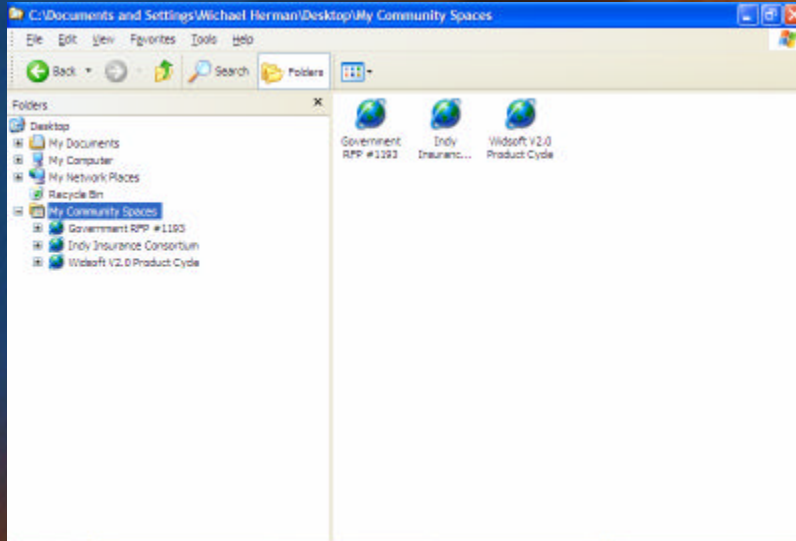

parallel
space

What are they? (con't)

- ◆ **Community Members (CM)**
 - Contains 1 or more Contacts and/or Community Groups
 - Contacts and Community Group members can be people or processes inside enterprise or across enterprises (Principals)
 - Each Principal has a CS wide Role
 - CMs don't nest inside CMs
 - Community Groups can nest elsewhere in the LH user experience
 - "Double Presence"
 - Online/offline/away plus presence in a CS
