### Parallelspace PresPart™ Portal Migration Planning Workshop

Accurately Inventory, Analyze, Estimate, Plan and Execute Your Portal Migration Project

#### Overview

Parallelspace PresPart™ Portal Migration Planning Workshop uses the PresPart Portal Migration Framework to help inventory, analyze, estimate and plan version-to-version portal migration projects as well as migrations from one vendor's portal platform to another. The framework is based on customer experience and PresPart ESP™, a three-dimensional complexity model for estimating portal migration effort.

This fixed-price workshop includes 3 days of on-site education, consulting and mentoring. from a Parallelspace principal consultant. In this workshop, you and your team learn how to use the PresPart Portal Migration Framework to estimate and plan your portal migration project.
